Mick,

Trust this proves useful. I'll get a hard copy reference on Lexstra paper to you. Can you let me know your postal address?

Yours sincerely,

Jon Cashman

Jon,

I worked with Mick Knutson for only few weeks in May 2000, but during this time found him to have a considerable breadth of practical knowledge regarding the strengths and weaknesses of the e-business/e-commerce development products, tools and standards (e.g. Websphere, Weblogic, Webgain, XML), available to our industry. He also demonstrated a good knowledge of different hardware platforms and operating systems.

Mick has a likeable, easy going, personality. He was easy to work with and presented himself well in front of our client.

Please note that this is a personal reference and should not be construed in any way as a reference from IBM UK Ltd.

Regards, Alan

Subject: Reference on Mick Knutson

Dear Mr Clark,

I am trying to take a reference on Mick Knutson regarding a Java assignment Lexstra is managing. Could you email me a brief assessment of his skills and a summary of how you felt about the quality of the work he performed for you?

I appreciate your help on this. Thanks in advance.

Yours sincerely,

Jon Cashman
